YOUR OWN AMUSEMENT PARK EXPERT

01 General Plan

Maximize the use of your space and ensure the highest play value with effective placement of playground activities.

04 Detailed Design

Every single detail is well considered to ensure our products not only meet design requirements but also comply with the strict international standards.

05 Interior & Logo Design

Make your play center more accessible, attractive and professional. Visitors are better able to find their way in your play center and get more fun.

06

02 Concept & IP Design

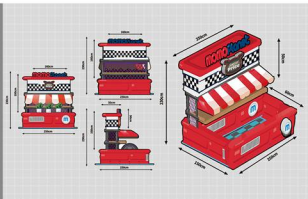

Make your play center different and stand out from others! We always provide the best and most creative design concepts!

03

03 Design Development

Tell us what you want and we'll make it come true. We would be delighted to custom design your project to suit your building, needs and budgets!

06 Manufacturing & Installation Supervision

With 600+ experienced workers and 100+ skilled in-house engineers, we can take good care of your projects throughout the entire processes of manufacturing and installation!

07 Project Management & After-sales Service

We are seasoned veterans in the industry, having built thousands of projects all around the world. We provide excellent service after sales that will make you completely worry-free!

04

OUR CERTIFICATION

The first soft play company in China that receives **GS-EN1176** certificate issued by TÜVRheinland

Our products receive ASTM certificates **ASTM F1918-12** and **ASTM F2970-17**

Since **2002** as a member we've been dedicated to providing **the most creative, safest products**

In 2016 we become a member of this trampoline park family

Cheer Amusement is working actively to **avoid any accidents** in a kids play center

Our products are well certified to meet **CE** requirement for the world market

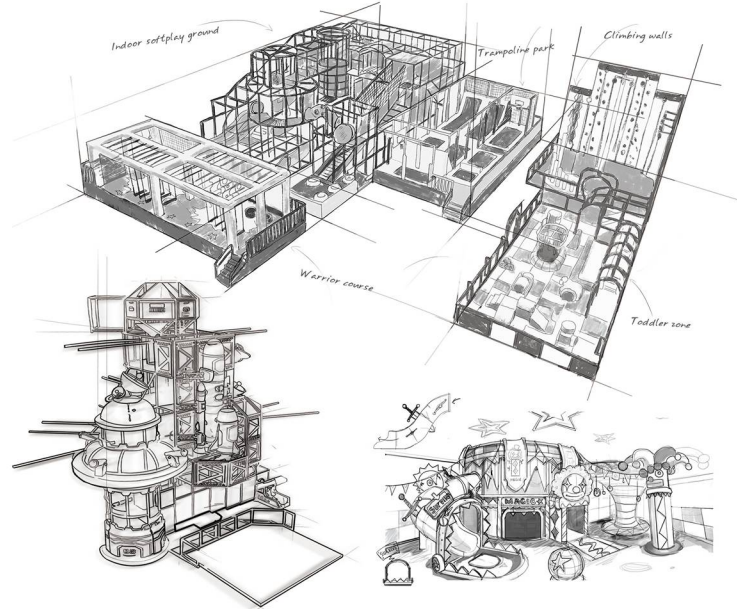

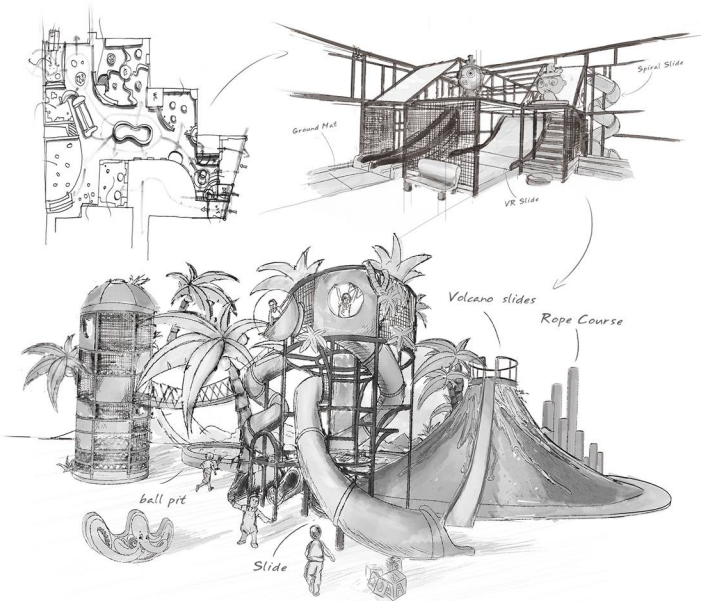

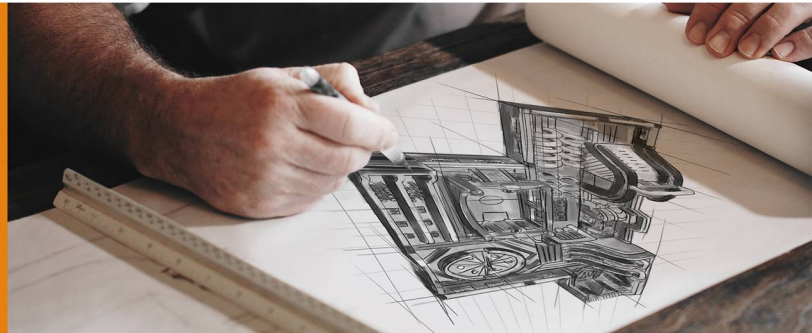

Work closely with **SGS** and make sure all materials meet fire marshall regulations

We satisfy **UL** requirement well in North American market

CONCEPT DESIGNS

We provide innovative and unique designs like no other in the market. We never stop creating and you will never have to make do with the second best.

CONCEPT DESIGN of ENGINE POWER

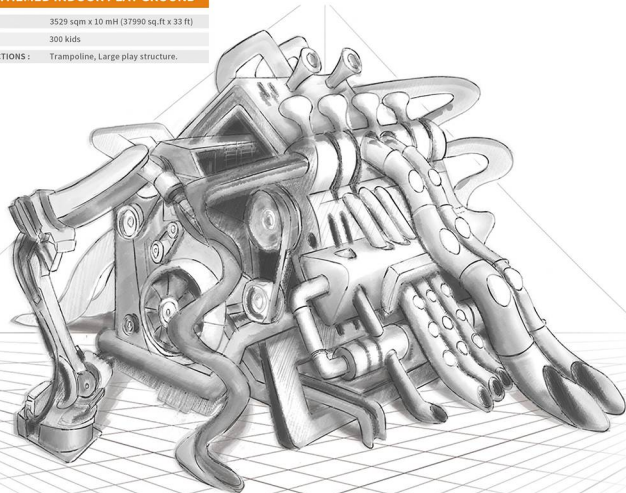

Taking the Engine as the idea, experienced designer from Cheer Amusement creates one original and brand new concept, which contains numerous exploratory, entertaining, and challenging attractions such as various multi-lanes tube slides made from **stainless steel**.

Such a playground enables children to explore their endless fun with no boundaries.

HAND DRAWING

ENGINE THEMED INDOOR PLAY GROUND

SIZE :	3520 sqm x 10 mH (37990 sq.ft x 33 ft)
CAPACITY :	300 kids
PLAY ATTRACTIONS :	Trampoline, Large play structure.

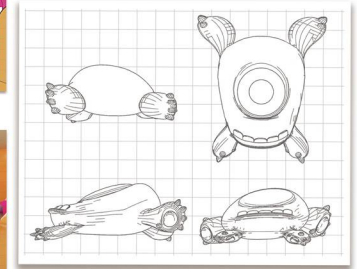

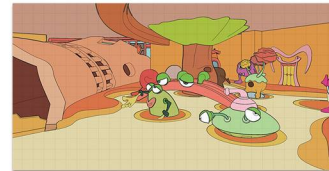

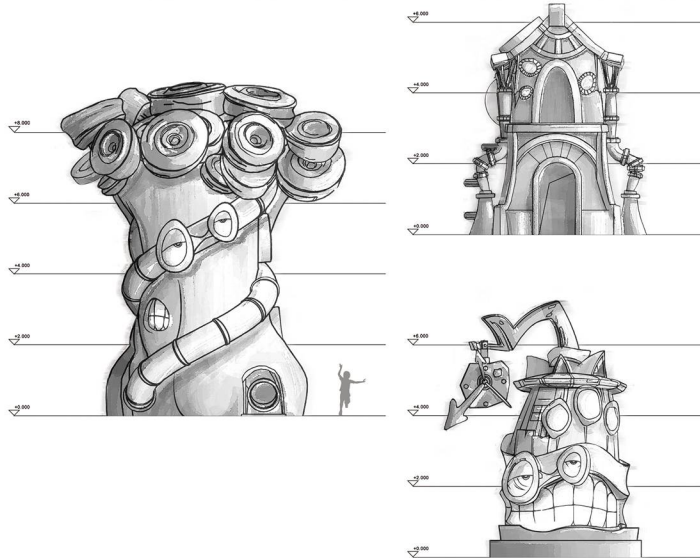

CONCEPT DESIGN of MINI MONSTERS

Cheer Amusement employs high-end design and take advantages of the best elements from the theme fun park all over the world, and spare no effort to build up Cute Monsters Theme Fun Park. Children can imagine playing with a variety of cute monsters during the game.

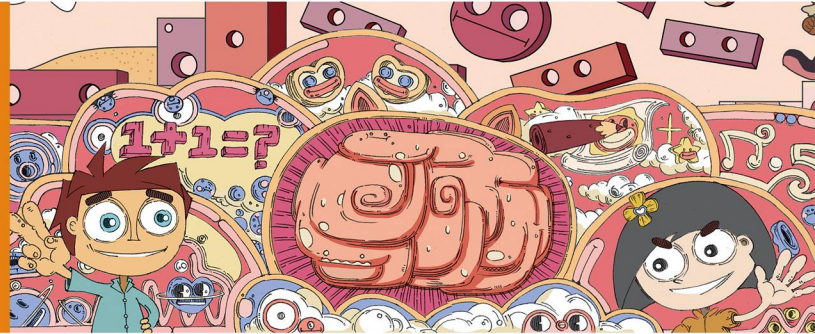

HAND DRAWING

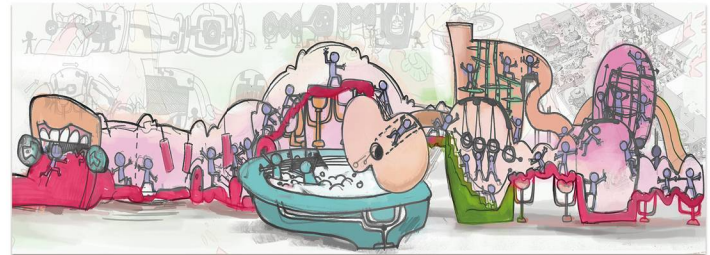

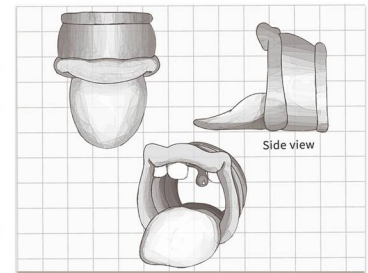

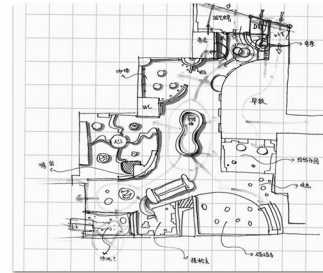

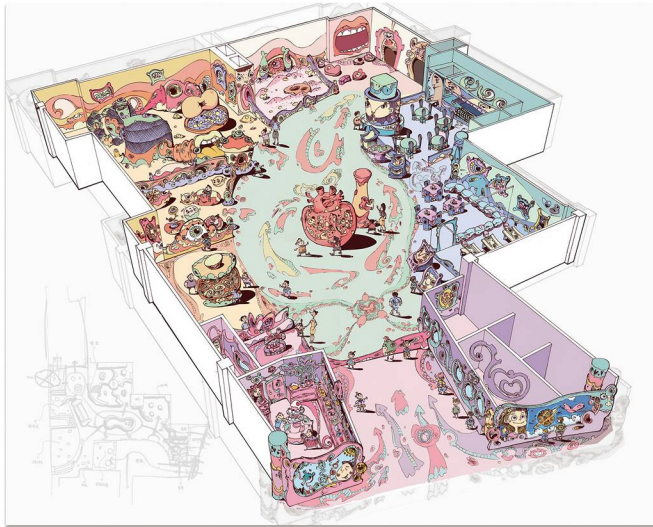

CONCEPT DESIGN of LIFE SCIENCES

Cheer Amusement lives up to the expectations to complete the design, manufacturing, installation of "Body Story", a national initiative of the Life Science themed park, making children's entertainment and education organic integration and reflecting the essence of contemporary education, where there is learning in playing and fun in learning.

HAND DRAWING

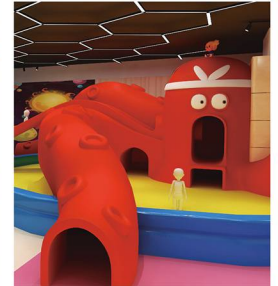

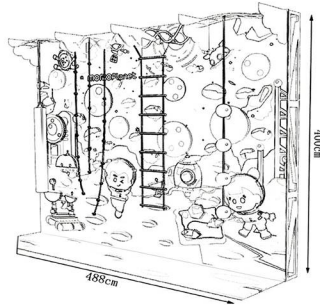

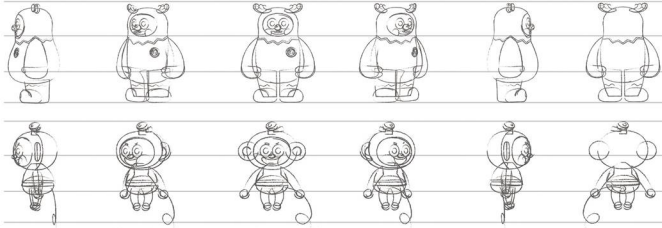

CONCEPT DESIGN of MOMO Planet®

Innovation, creativity, and ingenuity. By following these essential virtues of the industry, our design team is able to constantly produce amazing products that not only set the standards for the industry, but also provide incredible fun to its visitors.

Our constant innovation provides our customers with unique and amazing play centers!

HAND DRAWING

MODERN INTERIOR DESIGNS

Building a more aesthetic play center is becoming a challenge to both operators and designers. Using modern interior design concepts for our playground designs, you don't have to worry about it anymore.

WARRIOR COURSE

Warrior course is an adrenaline pumping race through a maze of walls, obstacles with adjustable difficulty, high absorption safety flooring (foam mats, inflatable mats or foam pit), and trampolines with different action zones. It is designed to incorporate running, jumping, vaulting, and climbing to challenge and improve strength, endurance, coordination, agility, and balance. It creates a fun adventure while providing an amazing workout effect.

AMUSEMENT

An aerial, 3D-rendered view of a large indoor amusement park. The park is filled with various rides and activities. In the center, there's a large, multi-level structure with blue and red slides and platforms. To the left, there's a circular ride with a red and white striped canopy. In the foreground, a large area is filled with black trampolines arranged in a grid, with red borders. Other rides include a roller coaster-like structure with red tracks, a circular ride with a red and white striped canopy, and a large, colorful structure with a red and white striped canopy. The background shows architectural blueprints and a large teal circular graphic element.
